

# Sterilmax

*You can Breathe Safely now...*

## Aura

*A healthy air*

*Aura* for the most pure & healthy air  
at your home & workplace.

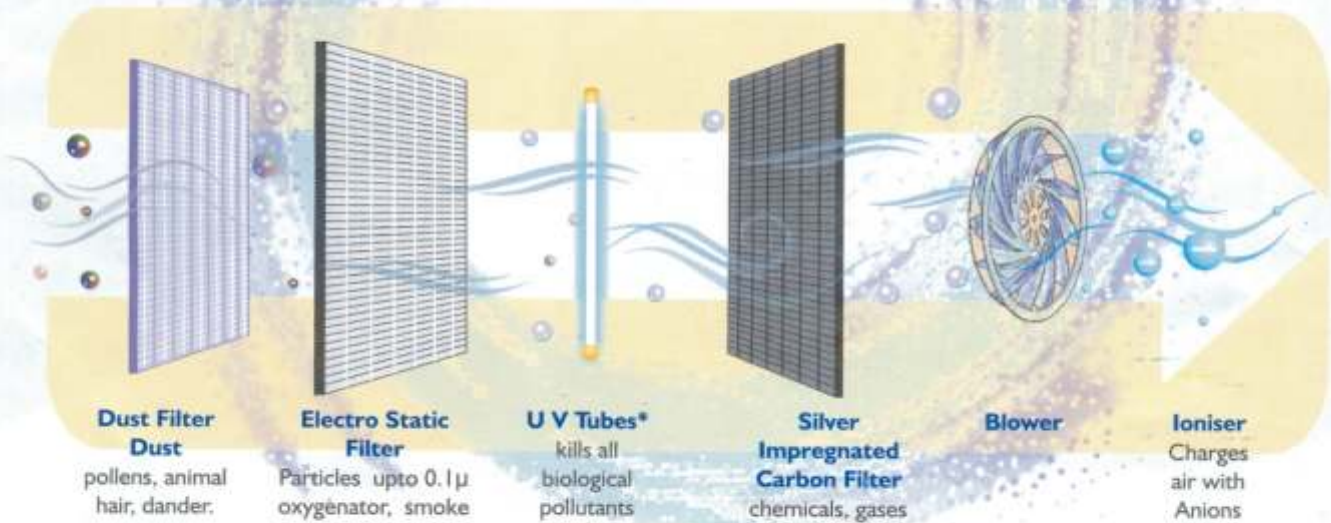

**Indoor pollution sources that releases gases or particles in the air are the primary causes of Indoor Air Quality (IAQ) problems in homes & offices**

**Typical sources of indoor air pollutants:**

- Outdoor air sources, such as pollen, dust, fungal spores, industrial emissions, and vehicle emissions
- Underground sources, such as radon; pesticides; and leakage from underground storage tanks
- Heating, ventilation and air conditioning (HVAC) equipment, emissions from home & office equipments
- Biological pollutants like bacteria & viruses

**Symptoms commonly attributed to IAQ problems:**

- Headache, fatigue, and shortness of breath
- Sinus congestion, cough, and sneezing
- Eye, nose, throat, and skin irritation
- Dizziness and nausea
- Allergic Asthma
- Frequent sickness amongst children

**Useful For :**

- Allergic or asthmatic individuals, or people with sensitivity to chemicals/smoke
- People with respiratory disease
- People whose immune systems are suppressed due to radiation or chemotherapy, post operative recovery or disease
- Offices, Hotels, Restaurants & Bars
- Children care centres

**Technical specification :**

	Aura
Dimensions (HxWxD)	350 x 280 x 120
Weigh	3.2 Kgs.
Electrical Input	---
Power Consumption	30 ( Watts)
Capacity	2000 Cu. Ft.
Air Flow	120 C.F.M.
UV Tube (optional)*	6w, 9" 253.6nm

Actual specifications & pictures shown may vary
